TIGER MARINE
Pure Adventure

An aerial photograph showing a large group of people gathered on several inflatable boats and a central floating platform in the ocean. The water is a deep blue-green color. The boats are white with black and grey accents, and some have outboard motors. The people are wearing swimwear and are engaged in various activities, including swimming and sunbathing. The scene is set in a clear, sunny environment.

WHY TIGER MARINE BOATS

LARGE INDUSTRIAL FACILITY

Our renovated factory, built on 5000 Sq. meters with a new management building and 95 high technical skilled workers and 5 engineers. Have two large hangers one for Fiberglass production and the second for inflatable assembly. Located 50Km from Cairo airport, 80 Km from Suez port and 200Km from Alexandria port.

LONG EXPERIENCE

Tiger Marine boats are in the market since 1996 which means 26 years of experience in the inflatable boats manufacturing techniques. This experience has reflected to our customers with a superior quality and performance boats.

TUBES WELDING TECHNOLOGY

All our tubes made in Valmex fabric are built with the latest technology of the thermo-bonding, which eliminates the old fashioned gluing method still used by some manufacturers. All our seams are indestructible and very reliable with superior finish quality. With more than 20 years' experience in heat welding machines we are offering a high quality boats with a real seams warrantee.

INTERNATIONAL DISTRIBUTION AND DEALERS NETWORK

Tiger Marine boats are exported all over the world through our worldwide network of authorized distributors and dealers; you can easily find your Tiger Marine boat at your nearest dealer in your country. Just click on our website and visit our dealer's page to find your nearest dealer.

ALL EUROPEAN PARTS

Tiger Marine boats are built with the best parts in the market, made by the best European manufacturers and complies with CE regulations. This is the only way to ensure the greatest quality of the parts and for the customer to receive the best boat for the value.

STANDARDS AND APPROVALS

Tiger Marine boats are built according to the requirements of the international standards ISO-6185, ISO12217 European directive for recreational crafts 2013/53/EU. Our boats are certified by IMCI (International Marine Certification Institute) and RINA. In addition to the ISO9001 (International standard for quality management systems). All this will help us ensure that customers consistently receive quality boats.

TOP GRADE FABRICS

Tiger Marine boats are built with the best inflatable boats fabrics.

- 1- VALMEX : PVC based fabrics made by Mehler TexNologies company from Germany.
- 2- ORCA : CSM (Hypalon) fabrics made by Pennel and Flippo from France.
- 3- SPRADLING : New fabrics from the world leader manufacturer for leather fabrics used in all Tiger Marine boats upholstery.

CONTINUES MODELS IMPROVMENTS

With more than 26th years of experience we are able to maintain a high level of modifications and improvements for our models. With a non- stop developments in our boats in order to reflect the best and the latest designs update on each model.

TopLine 650 history

VALUE FOR MONEY

Tiger Marine boats have achieved the difficult formula, which means raising the quality very much and offering a very attractive price for this quality. This equation has put Tiger Marine boats in a unique location in the market and make it one of the best companies in the world for the VALUE FOR MONEY.

WIDE RANGE OF MODELS

With 27 models in our range of boats now, we cover all requirements for most of our customers. We offer a wide range of color schemes for the tubes, GRP and upholstery to cover all your needs and taste.
